d. One car loaded with eggs entered East Germany from Bulgaria on 8 and 11 August.²

25X1A 1. ☐ Comment. As compared with July 1953, the number of loaded refrigerator cars entering East Germany from the USSR decreased from 1,256 to 907. However, the total of goods imported in 2,163 refrigerator cars in July and August adds up to 25,956 tons with an estimated 12 tons carried per car. This amount surpasses the scheduled fat import of 22,000 tons which was reported previously and indicates that food deliveries from the USSR continued over and above the originally fixed level.

25X1A 2. ☐ Comment. Aside from the beer imports, foodstuffs, including vegetables, from Czechoslovakia arrived at a normal rate.
